

Dear Parents,

The Canadian Early Intervention Research Team needs your HELP!!

We are conducting a national study on the experiences and perceptions of parents of children with special needs in Early Intervention across Canada. We have constructed a survey that is being distributed to parents from across the country to determine how parents perceive services and supports in each respective province or territory.

The survey takes 15-20 minutes to complete and is available online at:

<http://www.zapsurvey.com/Survey.aspx?id=e09fe4d1-7ff6-4926-b55a-1c88deb7a4f0>

Please note, if you chose to complete the survey using the link above, the survey must be completed and submitted online at one sitting (i.e., you can not return to complete the survey at a later time).

Alternatively, the survey can be emailed or faxed to you or administered over the telephone by contacting the primary research associate, Jennifer Saracino at jennifer.saracino@mail.mcgill.ca or (905) 592-1523. Please feel free to email Jennifer a number and time when you can be reached if your preference is to complete the questionnaire over the phone.

In exchange for your participation, you will receive an extensive report on the services and experiences of other parents across Canada along with any additional resources that are compiled by the research team.

Thank you in advance for your time and consideration.

Sincerely,

Primary Investigator
Ingrid E. Sladeczek, PhD
